

RE-APPEAR

An Automated Skip-Locate Tool For Increasing Debt Recovery Rates and Maximizing Productivity

RE-APPEARSM is an automated notification tool providing consumer locate information to collection professionals seeking to contact or monitor a “skipped” consumer to recover debt. RE-APPEAR monitors skipped debtors daily for new activity and notifies you within 24 hours when the information is posted to the credit file.

Contact Skipped Debtors — Before They Disappear Again!

- **Increase recovery rates** — drawing on a nationwide database of over 200 million consumer files, RE-APPEAR delivers valuable new address information, allowing you to contact debtors more quickly.
- **Maximize productivity** — your portfolio is monitored daily until customer-specified activity appears on the file, allowing you to work other accounts until new information is returned.
- **Reduce costs and increase profitability** — RE-APPEAR provides key information you can use to contact skipped consumers and recover debt, *and* you pay only when a notification is delivered — no per name fees.
- **Improve operating efficiency** — RE-APPEAR eliminates the manual process of gathering data from multiple sources, paying for inaccurate or useless information, and matching account numbers to consumer names.
- **Prioritize collection efforts** — integrating value-added services such as Equifax Recovery IndexSM, Equifax Recovery Score Late StageSM, or bankruptcy petition data assists you in identifying those consumers that are most likely not to repay.

**RE-APPEAR
returns only
the beneficial
information
you need
for your
recovery
efforts.**
